Bank of Spain's Report.

MADRID, Sept. 1.—The report of the Bank of Spain for the week ended yesterday shows the following: Gold in hand increased 6,000 pesetas, silver in hand increased 2,000,000 pesetas, notes in circulation decreased 7,485,000 pesetas.

OUR LONDON CABLE

Week Ends with a General Hardening Tendency.

At First, However, a Reduction of the Bank's Rate Was Discussed—Increasingly Difficult to Find Remunerative Investments—Speculation Restricted.

Special Cable to THE NEW YORK TIMES. Copyright, 1901.

LONDON, Sept. 1.—This has been a very uneventful week in our money market, without a single incident of particular importance, but with, on the whole, a gradual hardening tendency. At first credits were again fairly abundant and the supply of bills very moderate, so that it looked as if we would see a further movement toward ease. So sure did some sections of the market feel in this respect, that the question of a reduction of the Bank of England rate was again discussed, although the improbability of such a step was obvious in view of the very short time it could be in operation. Most European banks, it was claimed, were in an exceptionally strong position as regards their stocks of gold, and the exchanges continue in our favor, so that the possibility of immediate bullion withdrawals from this country was small. Austria, however, was still buying the metal and only the trifle of £10,000 reached the bank this week. The principal objection to a reduction, though, lay in the weakness of the New York Exchange. The latter reason also influenced the discount houses, and as in addition the end of the month approached with its usual withdrawal of floating balances by joint stock banks, the conclusion was come to that the rates had been allowed to slip back quite as far as was safe, and the quotation for three months bank paper has been worked up to 2¼ per cent., but the supply of credit continues comparatively plentiful and great difficulty has been experienced in maintaining it at that figure.

From now on efforts will probably meet with more success as, although the Bank of England has further strengthened its position by a return of notes and gold from circulation, it is practically certain that the tendency from now on will be toward a gradual weakening owing to home Autumn demands and possible gold exports.

There is little doubt that the present bad state of trade in the country is forcing large sums of money into the London market, where it is becoming increasingly difficult to find remunerative London market, where it is becoming in any class of securities for some time has been more and more restricted, and at the fortnightly Stock Exchange settlement dealers in credit found it a hard matter to renew old loans, even at easier rates. The borrowers took advantage of their reduced requirements to dictate practically their own terms in many cases, and others were compelled to reduce their indebtedness because they found themselves unable to use the money on any condition.

Day to day advances in the outside market, therefore, never rose above 2¼ per cent., even on Stock Exchange payday, and, as a rule, have been obtainable at from 1 to 1½ per cent.; weekly loans, however, have gone up from 1½ to 1¾ per cent.

In the beginning of the week the Government offered £1,000,000 in twelve months' Treasury bills to replace a similar amount maturing on the 30th, and, owing to the cheapness of money, competition for them was very keen. It was able to place the fresh paper at an average discount of 2.19 per cent., which is the cheapest borrowing it has done for some time and compares very favorably with the last batch of yearlings issued in June at an average of 3.2 per cent.

Very few reached the market; the Bank of England and joint stock banks, it is believed, have got most of them.

On Sept. 5, another installment of 10 per cent. on the new consols is due, and, allowing that the amount is paid up in full, this will require rather more than £4,000,000. Demands for loans on that day will certainly be large and the rate may rise to 3½ per cent., but the effect will be merely temporary as the Government must disburse the money almost at once.

ON THE LONDON EXCHANGE.

LONDON TIMES-NEW YORK TIMES Special Cablegram.

LONDON, Sept. 2.—The London Times in its financial article to-day says that at the close of the week business was almost at a standstill in most of the departments, the only exception being the American railroads, the market for which was active and strong. The market for these evinced a strong tendency all the latter part of the week, especially for the more active stocks, such as Atchison, Erie, and Union Pacific, all of which were bought. The home railway market was dull.

The eagerness of French houses for London bills has increased, and so long as money is plentiful in Paris and the rate there is lower than in London, this French demand for British securities will continue.

By The Associated Press.

LONDON, Sept. 1.—Easy money continues to be a feature. With its present reserve the Bank of England views with apparent equanimity prospective withdrawals for New York. There seems to be little likelihood of a severe autumnal stringency. At the same time Continental exchanges are weakening all around, and it is evident that London may be called upon to supply other demands than New York's.

Another feature, which seems to be persistently ignored by optimistic financial critics, is the fact that the Government has never professed that the last consol issue would provide for active operations in South Africa beyond Oct. 15. There seems small doubt that an avalanche of criticism will accompany the new loan which will inevitably be announced, and this will operate as a serious set back for the present more hopeful tone of the Stock Exchange.

Mining shares, in a modest way, showed the general feeling of encouragement. The deposition of Whittaker Wright at the meeting of the Le Roi Mining Company, Limited, added decidedly to the joyousness of the situation. The Rand now boasts 365 stamps, and one new permit to resume was issued during the week. West Australians were decidedly stronger, outside buyers venturing in, although timidly.

THE MANCHESTER MARKET.

MANCHESTER, Sept. 1.—The fluctuations in Liverpool last week had an adverse effect upon the cloth market, restricting the turnover to the most moderate dimensions. India and China were the chief bidders, but their offers generally were refused.

The home trade was very slow, though print cloths were in moderate request, with prices generally firm. Producers are holding off, confident of a future advance.

Yarns were irregular, quotations generally being from ¼ to ⅜ higher and tending upward, in sympathy with raw cotton. The buyers, however, profess little faith in the permanence of the advance. They appear to be purchasing from hand to mouth, while shippers seem to have bought all they require.

Complete Bond Quotation List, New York Stock Exchange, for the Week Ended Aug. 30, 1901.

Where a bond does not appear in the following table in its proper place alphabetically, it can be found under the head of the system of which the road it is lien on is a part. On these pages is printed a "key to bond list," which gives such bonds in regular order and the name of the system under which they may be found.

A Good Reason Why You Should Have a Safe Deposit Box in Our Vaults:

The securities of residents of **New Jersey**, which are kept in **New York Safe Deposit Vaults**, in the event of death, are subject to the **Five Per Cent. Collateral Inheritance Tax** imposed by the laws of the State of New York, and **which must be paid before the goods can be removed from the vaults.**

You avoid this tax by renting a box from us.

Boxes to rent at $5 per year and upwards, according to size.
